It's State Fair time again. We went on a Friday. My three favorite things to see are the Photo exhibit, the Sewing and Quilt Exhibit, and the building with all the baby animals. The quilts are all so beautiful. Also made our annual trek to the Thresher's Reunion in Mt. Pleasant. VERY hot & humid weather, but we got a nice shady campsite at a county park.

- ☀ This month's craft project will be car making for Gems of Hope. We have done this in the past, but not for a couple years now. They are a great group and are always glad for our help. Sometimes we also make earrings. They bring all the supplies for us and we usually get a lot accomplished. These items all go to people with cancer.
- ☀ Last month's duct tape flowers proved to be much easier than the gift card holder, to the relief of many! Thanks to Mary Lagerquist for her prep work and direction on this project.
- ☀ Next month we will not have a craft, as it is the beginning of our new Fiscal Year and we will be having Pizza and Bingo. Board members will be buying some bingo prizes, but if you want to contribute any, just wrap them creatively and cheaply.
- ☀ Our Charity for this month will be a donation to Gems of Hope.
- ☀ We are still in need of a Treasurer, so we are looking for another volunteer. Please speak to any of the board members if you might be interested.
- ☀ Our new fiscal year starts again in October, so PLEASE consider running for an office. We don't want to get in a rut with the same people all the time.
- ☀ Also, dues will be coming up that month too.

Happy Birthday!

Elastic Sewing Tips from Nancy Zieman (Sewing With Nancy on PBS)

Elastic waists: When making a garment with an elastic waist, instead of overlapping the ends of the elastic and sewing them together, Nancy says to zig-zag them onto a small scrap of woven fabric, so that the two elastic ends just but up against each other and not overlap. It makes for a much smoother connection.

Make an elastic waist without the casing showing: Nancy says she learned this from looking at a ready-made skirt she bought. The example she showed used knit fabric. If you want an elastic waist on a skirt or pants that does not look like the usual stitched casing and gathering, zig-zag your elastic to the wrong side of your waistband, close to the upper edge. Then fold it over as if you were going to stitch a casing line beneath it. But instead, just go to the right side of the fabric and "stitch in the ditch" over the elastic at each side seam and front and back seams to hold it in place. Now when you wear the garment, the gathering just smooths out and it does not look like an elastic waistline. I think this would work best for something that did not need a lot of gathering, like a slim knit skirt or shorts/pants.

Flexible people never get bent out of shape.
