- *Donated Items*
- *List of Members*
- *Membership Renewal Form*

From the President

October 3, 2001

FROM THE PRESIDENT

The September meeting was a huge success from my point of view. We were able to elect officers to every club position. Thanks to everyone who volunteered. And for those of you, who missed the meeting and a chance to be a club officer, well there's always next year.

Ron Meyer has volunteered to be vice president and he needs the support of the club and ideas for programs. Let's all pitch in and help with the programs this year.

John Cox, the company photographer is cleaning out the photo studio and is making available to the club some of the excess items. After we determine what's available, we'll let you know what the club has managed to pick up.

Also, be sure to send in your renewal for next year's membership. You can send the

renewal to Kathy Rutherford (137-108). All membership forms for FY02 need to be in (to Sandi Strike) by November 1st. So, be sure to get your membership dues to Kathy by October 26th.

The October meeting will be the showing of the one-shot contest photos. It's always a good time. Be sure to attend.

As always, if you have some photos or some other photography related items you'd like to share with the club, be sure to bring them along to the next meeting.

Any comments, suggestions, or volunteers to help out with programs and club activities will be appreciated

Doug Dams
FY02 CPC President

It's membership renewal time!
Renewal is only \$10 – what a deal!
Please send the renewal form included in this newsletter to Kathy Rutherford 137-108.
Renewals must be received by Kathy by October 26. to avoid a late fee of \$7
Thanks

Retirees can send their renewal to:

Kathy Rutherford 137-108
Rockwell Collins
400 Collins Rd. NE
Cedar Rapids, IA 52498

From the Editor

Sorry for the later newsletter. Just as I returned from vacation to the Boundary Waters (doing lots of photography), I received a summons for jury duty. I ended up on a 2 week case which will end next Friday or thereabouts. Hence the short 'From the Editor'. More words will be here next month.

Gary Hamer – Newsletter Editor x9551

Polarizing Filter for 65 MM Lens

Doug Dams
FY01 CPC President

Notice to Photo Club Members Who Bring Chemicals into Darkroom

Below is the Photo Club Procedure for bringing chemicals into the darkroom. This is reproduced from our Membership Guide Supplement. As some of you may be aware the North Campus is gearing up for their ISO 14001 Certification. This is the environmental standard that many of the other facilities are certified to. As the darkroom is part of the North Campus we have the possibility to be audited during this certification. It is important that we follow the Rockwell Collins Procedures if we want to continue to have access to the facility. Kathy Rutherford will be working with the Environmental Engineer to assure that the room is up to the requirements that are needed and will assure that any changes that need to be made by CPC are communicated to the members. It is unknown at the time of this newsletter if the contact listed from the guide supplement is the current contact at this time, if this has changed it will be communicated at a later date.

Bringing Chemicals into the Facility

When bringing darkroom chemicals to the darkroom the following procedure should be used.

- 1 All chemicals to be used in the darkroom **MUST** be on the approved list. Bringing chemicals into the darkroom that are not on the approved list may cause you to receive disciplinary action by Rockwell. Not following the listed procedure when bringing approved chemicals into the darkroom may cause you to receive disciplinary action by Rockwell.

NOTE: You must enter building 118 from the outside. Bringing chemicals into the facility through another entrance may cause you to receive disciplinary action by Rockwell.

- 2 All approved chemicals must **first** be brought into the facility through Chemical

Control ms118–100, x55099 during normal work hours.

- 3 Call Chemical Control to see if they are busy, let them know that you will be stopping by to check in chemicals for the photo club darkroom. The current (11/97) contact is Vickie Baumann x58542.
- 4 Go to Chemical Control ms118–100 (see map), there is a small loading dock. You will have to use the buzzer by the door to gain entrance. Tell them that you have chemicals you want to bring in for the Collins Photo Club Darkroom. They will look up the chemicals MSDS sheet & label the chemical bottles.
- 5 You can then take the labeled chemicals to the darkroom, follow the Darkroom Reservation Procedure. When you sign in at the guard station the guard will want to see that your chemicals are properly labeled.

NOTE: It will not be possible to remove / bring in chemicals that are mixed, I.E. not in their original manufactures container. Once chemicals are mixed they will have to remain in the darkroom. There is room under the sink in the darkroom to store your chemicals, just label them with your name.

Kathy Rutherford x4113

Change of Address

Please notify the Newsletter Editor of any change of address. Contact Gary Hamer at 295-9551, email to ghamer@collins.rockwell.com, or mail to M.S. 137-154. *Thanks!*
